

US GeoData Products

1. Use these forms to order digital cartographic and geographic products from the U.S. Geological Survey. **All product types are not available on all output media. See the table for available output media for specific product types.**

2. Please complete both forms, including the output specifications section.

3. Payment (check, money order, VISA or MasterCard information, purchase order, or Government account) must accompany order. Make all drafts payable to Dept. of the Interior—USGS.

Customers outside the United States, please send an international money order or check drawn on a U.S. bank in U.S. dollars.

4. For assistance in completing this form, contact any Earth Science Information Center or call 1-800-USA-MAPS.

5. Return both forms and payment to any Earth Science Information Center.

Price Specifications

DEM, DLG, LULC, GNIS, and DOQ Data

(Five units or less):

One unit	\$ 40
Two units	\$ 60
Three units	\$ 80
Four units	\$100
Five units	\$120

(Six units or more, add a **base charge of \$90 plus \$7** per unit):

Example for 50 units:

Number of Units	Unit Price	Base Charge	Total Price
50 x	\$7 +	\$90 =	\$440

US GeoData Sampler Data

One 6,250-bpi 9-track tape	\$25
Three 1,600-bpi 9-track tapes	\$75

CD-ROM Data

DLG, DOQ, and DRG	\$32 each disc
GNIS	\$57 each disc

Name (first, middle initial, last)	Telephone Number	Date
Company or Agency	Customer Purchase Order Number	
Address	USGS Vendor Code or Account Number	
City, State, and ZIP Code	VISA or MASTERCARD Number	
Ship to (if different from above):	Expiration Date	
	Signature	
Remarks:		

Map Name	State	Scale/Size	Product Type	Quantity	Unit Price	Total Price
				Total Units (plus subtotal from the reverse)	Subtotal	
					Total (from reverse)	
					Base Charge (six or more units)	
					Handling Charge (per order mailed)	\$3.50
					Total Order Cost	

[illegible]

Product Type and Series

Digital Line Graph (DLG)

Large scale (7.5- and 15-minute units, 1:20,000 through 1:63,360 scale)*

U.S. Public Land Survey
Boundaries
Transportation
Hydrography
Hypsography
Nonvegetative features
Survey control and markers
Manmade features
Vegetative surface cover

Intermediate scale (30- by 30-minute units, 1:100,000)*

U.S. Public Land Survey
Boundaries
Transportation
Hydrography
Hypsography

Small scale (sectional units, 1:2,000,000)*

Boundaries
Transportation
Hydrography

Small scale (State units, 1:2,000,000)*

Boundaries
Transportation
Hydrography
Manmade features
U.S. Public Land Survey

*Specify optional or SDTS DLG format.

Digital Elevation Model (DEM)

7.5-minute units
15-minute units (Alaska only)
2-arc-second (30-minute units)
1-degree units (Defense Mapping Agency arc-second data)

Land Use and Land Cover (LULC)

GIRAS

Land use and land cover
Census county subdivisions
Political units
Hydrologic units
Federal land ownership
State land ownership

Composite grid cell

Intermediate scale (30- by 60-minute units, 1:100,000) (limited coverage)

Small scale (1- by 2-degree units, 1:250,000)

Geographic Names Information System (GNIS)

State file

Populated places in the United States

Topographic map names

Concise (abridged United States based on USGS National Atlas)

Custom search (call 1-800-USA-MAPS)

US GeoData Sampler

Sample of the following seven product types and associated data with data users guides—

- (1) Small-scale LULC
- (2) 7.5-minute DEM
- (3) 1-degree DEM
- (4) GNIS data
- (5) Small-scale DLG**
- (6) Intermediate-scale DLG**
- (7) Large-scale DLG**

**Specify standard or optional DLG format.

US GeoData on CD-ROM

DLG sectional United States coverage (1:2,000,000)

DLG State coverage (1:2,000,000)

DLG hydrography and transportation data, 14 areas (1:100,000)

DOQ county coverage in JPEG compressed format, 3.75 minute (limited coverage)

GNIS (contains three data bases—National Geographic Names, Topographic Map Names, and Reference)

Digital raster graphics (DRG) 1-degree cell in TIFF Pack Bits compressed format (limited coverage)

Output Specifications

Output/Medium:

9-track tape (6,250 bpi)
8mm tape
3,480 cartridge tape
CD-ROM
File Transfer Protocol (FTP)

Label:

Unlabeled
Labeled (ANSI)
IBM standard label (GNIS only)

Mode:

ASCII
EBCDIC (GNIS only)

DLG Format:

Optional
Graphic (small scale only)
SDTS

Block Size:

Specify largest acceptable block size
